CCP Follow Up

- * How many CCP+ this year? Approximately 420 credit hours (approximately 140 classes results in about 80-90 students)
- * Have we done away with class ranks? This year's sophomore class of 2021 will be the first class to not have class ranks.
- * CCP+ fund: State takes money out of foundation (EMIS system) fund \$, state takes the money before we even see it.
- * Is Lakeland only option? Lakeland is the most convenient option for our students. Students can attend any public college in Ohio, and any participating private college. We are required to invite any public college within 30 miles to our yearly winter CCP+ meeting.
- * What are some of the reasons students take CCP+ courses? Students choose CCP for a variety of reasons that meet their personal goals.

Strategic Plan

After many meetings and the hard work of community & staff members Bill Wade was happy to present the latest copy of the Strategic Plan. Handout and copy of Strategic Plan passed out, copy is available on the district web-site. Tim Cosgrove stated he would like to see something on the lines of us "cultivating a sense of intellectual curiosity." He felt it was really important, BW said he would look at it and try to include. Tim Cosgrove also stated he felt we needed to imply that we "don't do a good enough job teaching kids to be intellectually curious" & should include the word "knowledge" in the SP. Bill Wade said we did include with word "learning" which generally means the same. Bill Wade's ultimate expectation with the Strategic Plan is that people should know our school's vision & mission statement & some goals. Shannon Green stated

that she would like to see our SP read at the beginning of each SB meeting & possibly highlight and go over a different goal at each meeting.

Bill Wade already working on Action Plan for STRATEGIC PLAN GOALS:

GOAL #1: Kirtland LS will implement a personalized learning pathway system for all students.

KMS & KHS already working on this and Scott Amstutz & David Leone will present vision pathways college and career planning at January SLA meeting.

GOAL #2: KLS will continue to focus on a safe and secure environment, including the appropriate social and emotional supports to develop the whole child.

KES Chad VanArnhem working on: guest speakers, PTA, Crossroads, continue safety planning with KFD & KPD.

GOAL #3: KLS will manage resources efficiently and effectively focused on student learning.

Bill Wade leading this with the biggest thing this year being healthcare. Looking at budgets, working on grant opportunities.

GOAL #4: KLS will implement a plan to engage and empower students, staff, parents and community.

Community engagement is being worked on district wide level & building (KES/KMS/KHS), looking at alumni planning, reaching out to students (advisory committee in each building) & another aspect looking at community engagement with senior citizens.

Possible classes our students could teach senior citizens? (ie. helping them with technology).
