#### *The Warrior: Katie Ellsworth*

From a 50 / 50 ball, to a pass that ends up at your feet, to jumping up for a header – every act in soccer nearly every moment of the game, invites physical confrontation. And in this confrontation, your courage is tested. You have the opportunity to become a warrior.

#### *The Artist: Olivia Cubela*

For the artist, the field is the canvas. On it, she delivers bent balls, using the inside and outside of both feet; serves balls with a “user-friendly” backspin that die behind defenses, or that come to rest at a teammate’s feet; makes perfectly textured passes – with pace and precise accuracy. She employs feints – used to deceive opponents – such as cuts, lunges, or step-overs. She has perfect touch and plays with control that the ball stops dead on impact.

#### *The Visionary: Matea Cubela*

The visionary is a soccer genius who has the capacity, poise, and patience to make a good decision under heavy pressure. She has a game sense, which is what you see in players who just seem to know where the ball will go next, and how to respond. When a visionary gets the ball, she sees the entire field and everyone on it. She has knowledge of angles, and distances, when and where to move and how to anticipate that movement.
