

On average, by the end of the summer, students are academically approximately two months behind where they were in the spring.

However, these same studies have consistently found that high-quality, engaging summer school programs can go a long way in preventing learning loss and can even accelerate student achievement and performance.

All students are provided the opportunity to continue learning throughout the summer to enhance current skills needed to be academically successful.

Focusing on Reading, Writing and Mathematics, students will be able to refresh their skills in a school environment that is sure to prepare them for the upcoming school year.

The Summer Brain Boost will also provide students time to develop their social skills and participate in some physical activity in order to give the camp a well-rounded feel.

On-line Registration at:

<https://www.kirtlandschools.org/BrainBoost2021>

Payment is due July 1, 2021.

Checks should be made out to the Kirtland Local School District.

Kirtland Schools'

Summer Brain Boost

July 5 through August 5, 2021

Summer Brain Boost for Kirtland Students that are Currently in Grades K-11

Grades K-3

In-Person Instruction

The Summer Brain Boost will enhance students' solid foundation in reading for success across the curriculum.

The Brain Boost assists students in growing in their phonics, fluency, vocabulary and comprehension skills from daily reading and, practice and experience. Students will continue to develop writing skills, including grammar and mechanics. Math skills will include grade level concept reinforcement from this past school year to improve mastery.

All skills taught and reinforced will continue to form a strong foundation for learning and later academic success.

On-line Registration at:

<https://www.kirtlandschools.org/BrainBoost2021>

Grades 4-5

Virtual Learning

The Summer Brain Boost provides students the opportunity to ease into the new school year with daily academic review and reinforcement.

The Brain Boost will enhance students' skills in reading, writing and math.

The Brain Boost assists students in growing in their fluency, vocabulary and comprehension skills from daily reading and, practice and experience.

Students will become more confident in their writing skills, enjoy writing and learn different strategies to improve their writing skills.

Math skills will include grade level concept reinforcement from this past school year to improve mastery.

Your student's Summer Reading Assignment for the fall will be incorporated into the Summer Brain Boost instruction.

Grades 6-11

Virtual Learning

The Summer Brain Boost provides students the opportunity to keep the learning going into the summer months!

In lieu of being allowed into buildings this summer, we are focused on supporting students and their families with virtual learning delivered to each student.

Students will be provided reinforcement in Reading and Writing and in Mathematics.

Your student's Summer Reading Assignment for the fall will be incorporated into the Summer Brain Boost instruction.
