The Kirtland Education Council was founded in 2008 as an advocacy group of caring citizens to support the needs of children who learn differently. We understand that all children learn differently and have unique educational strengths and challenges. Kirtland Education Council has found that there is a need to help families further the education of children who may not qualify for traditional scholarship programs due to these challenges. One of the goals of the KEC was to provide scholarships to qualified students who choose to continue their education either in a trade/technical school or college.

The Kirtland Education Council is asking for your help through donations, so that these talented students can have the gift of continued education. We understand that post-secondary education empowers students to be successful in their career goals. This gift of education will help these young adults in their journey to grow and to have strength within themselves to go forward in the world and make a difference. We encourage you to help us make that difference in a child's life; it will be a gift that will continue to grow!

The Kirtland Education Council would like to thank you in advance for your generous donation and support of our scholarship program.

Sincerely,  
The Kirtland Education Council
